Subject: Re: CALFED DEIR/S Review

Nadell--

Here is a summary of the process that I sent to Phil Wendt.

KK

>>Phil--

>>

>>DWR's review of the draft PEIS/R needs to be thorough but at the
>>programmatic level. Because we put considerable effort in reviewing the
>>admin draft, our review of the public draft should be easier. The review
>>as described below is designed to minimize staff time yet be thorough.

>>

>>Public Draft PEIR/S review:

>>

>>1) The CALFED Program Coordination Team members from DWR (Dennis Letl,
>>Randy Brown, me, David Sandino, and Chuck Vogelsang) will be on point for
>>determining who reviews what in their respective areas. (I will coordinate
>>with O&M and DOE in addition to the Planning Office.)

>>

>>2) Individual PCT members are to determine if comments on the admin draft
>>regarding their respective areas have been addressed adequately and to
>>assure that the appropriate appendices are reviewed.

>>

>>3) Chuck V will be consolidating the comments for transmittal to CALFED.

>>

>>

>>I hope our comments have been adequately addressed and the appendices are
>>sufficient for a programmatic document but we will wait and see how it
>>goes. I think the PEIS/R will have incorporated our comments well enough.
>>The appendices are the unknowns.

>>

>>I will be sending out a memo describing this process and the schedule this
>>week.

>>

>>If you would like to know more, just let me know.

>>

>>KK

>>

>>

>>>Kathy;

>>>

>>> I would like some guidance from you on the Department's approach to
>>>reviewing\commenting on the CALFED DEIR/S. Will the Department be using
>>>the same CALFED EIR/EIS Review team to review the DEIR/S, or is the
>>>Department going to be providing comments at all on the document? Our
>>>staff spent considerable time reviewing the internal draft, and having
>>>spent some time in the interagency review workshop, I felt that many of the
>>>department's comments were substantive. Before I commit any more time to
>>>see if our comments were addressed I would like some feedback from you
>>>about the Department's continued role throughout the rest of the review
>>>process.

>>>

>>>Thanks

>>>
